

I elected to buy this radio and pay a monthly fee for the service. The reason was to get programing of my choice. I can get instant access to weather and traffic, whereas on local broadcasts I have to wait until they choose to tell me. I intend to call Sam Johnson and tell him of my feelings and that if he decides to vote for HR 4026 I along with other users of satellite radio will put someone else in office.

Regards,

Bill Lynton
